

Rome - December 13 and 14, 2019

7th International Congress
on Oct Angiography and Advances in OCT

The “7th INTERNATIONAL CONGRESS ON OCT ANGIOGRAPHY AND ADVANCES IN OCT”, will be held December 13-14, 2019 in Rome.

OCTA imaging fulfills a huge research and clinical need and is a widely accepted imaging technology applied in everyday clinical ophthalmology.

This meeting brings together basic scientists, retina clinicians, engineers, industry managers from all over the world. It provides high value teaching.

During the Congress you will:

- hear firsthand about research results and clinical everyday applications*
- see by yourself the newest devices*
- explore rare or difficult clinical cases in the Quick Fire Sessions*
- expand your professional network: meet old friends and make new ones*
- meet personally colleagues from all countries in the warm and relaxed atmosphere that is the stamp of our Rome OCT Congress.*
